An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Hille '465 shows aqueous coatings of two urethanes and melamine resin. The examiner cannot determine the pendulum hardness of the individual urethanes. Thoma '761 shows coatings of a soft urethane, hard urethane and melamine resin. Again, the examiner cannot determine the hardness of each urethane. Additionally, Thoma's composition is not waterborne. Salatin shows low temperature cured waterborne polyurethane/melamine coatings, but of only a single urethane.
